Real Time Tracking

Worried about where your assets are? Turn on your eyes through your Smartphone and track Real time Location and movement status

Expense Management

Control over drivers and vehicles Expenditure means control over cash flows. Send money to drivers at the tip of your hands, gain complete financial control over your assets. Also, Go Cashless

Trip Management

Plan and manage your trips at one place to increase the productivity of your fleets.

Reporting and Analysis

Download reports directly from web and track fleet productivity

API Integration

Can be easily integrated with your existing systems

Document Manager

Manage your document at one place and set reminders for renewals. Upload state permits, RC, License and keep them safe.

Real Time Alerts

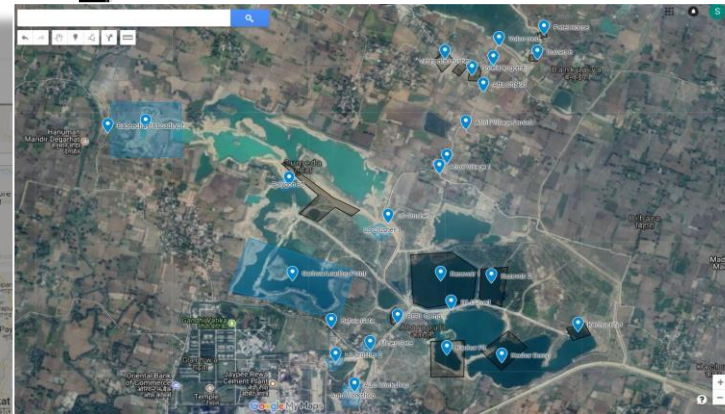

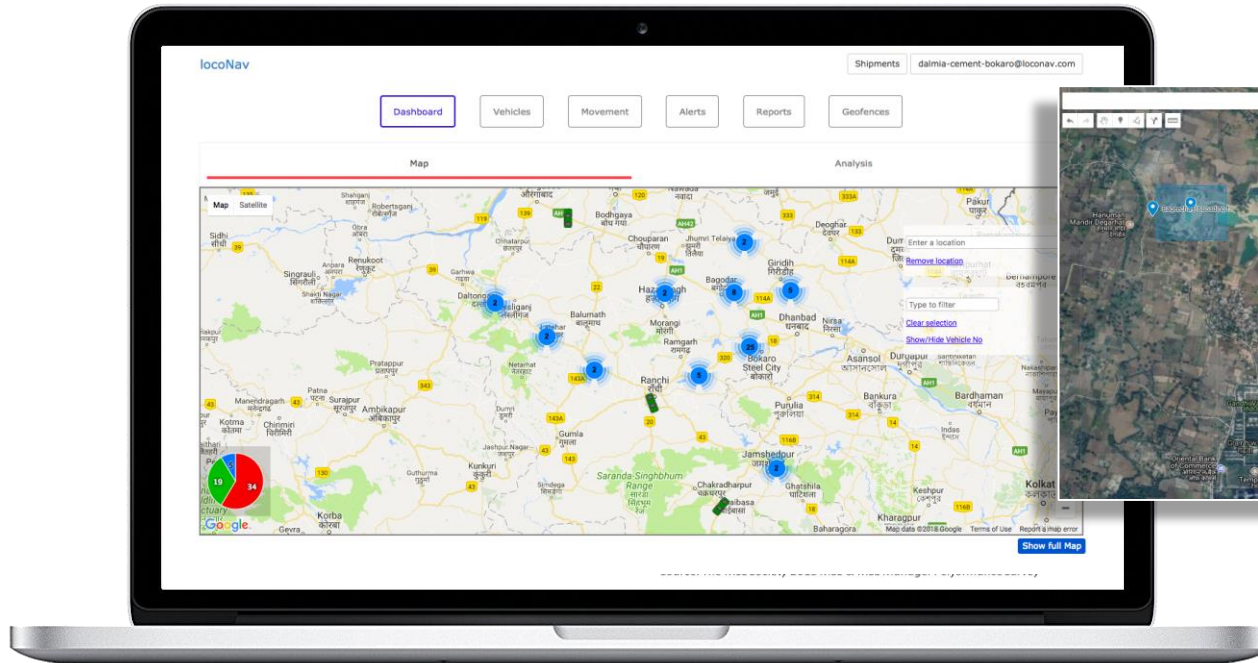

Get notified instantly if the vehicle stops or deviates from the defined route

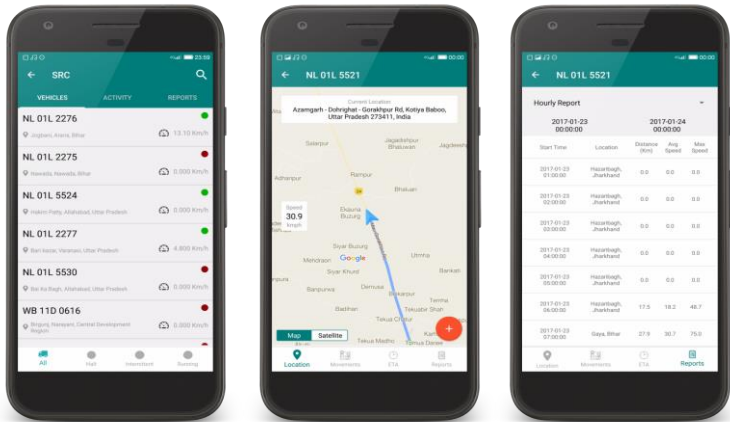

How it works?

Hawk Eye view over all vehicles

- Search, locate and monitor all vehicles in Real time
- Nearest Asset Locator to spot nearest vehicle from a location
- Remotely Immobilize rogue vehicles
- Track and share ETA

Vehicle [NL 01N 6255] has entered the Balaji Traders @Badli Village, Rohini, New Delhi
11 Apr

Vehicle [NL 01N 6255] has left the Balaji Traders @Badli Village, Rohini, New Delhi
11 Apr

Vehicle [NL 01N 6255] has entered the Krishna Trading Company @Vasant Kunj, New Delhi

Shipment Tracking

- Track, manage your shipment
- Identify and share delivery time from any A to B location
- Share real time location with unique link for that shipment

Vehicle Idling

- Enter Vehicle states like loading, waiting for load, running empty, etc.
- Understand idle running time of vehicle to maximize Asset Utilization

Route Optimisation

- Create vehicle routes to specify route of a vehicle beforehand
- Add checkpoints on the route as required
- Get a clear view of the route and the checkpoints on a map

Benefits

- Easy to manage and Log all the trips
- Set arrival targets and get information on ETA
- Allocate drivers to suitable assignment
- Plan trips to increase no. of trips per vehicle

Commercial Vehicles have innumerable renewals to take care of through the year. And with a fleet, renewals are even more difficult to track and manage.

AITWA Partnership

Proud partners with one of the largest Fleet owner Association in South East Asia

Global Logistics Excellence Awards

Loconav has been awarded the Freight and Supply Chain Visibility Solution of the Year at Global Logistics

ARAI approved AIS 140 Device

Complaint with Govt Regulations

DBRC uses LocoNav's platform and devices for 800+ vehicles. We identified fuel pilferages by constantly monitoring fuel pattern consumptions and saved fuel costs by ~6%

Shree cement is known for its best in-plant TAT in the whole cement industry, and is one of our premium customers. Loconav's platform is used in all its cement plants.

ITC has a massive movement across different consumer products and transport vendors attach vehicles with ITC to carry out these logistics operations. LocoNav's platform helped ITC in getting a Hawk Eye view of all the logistics operations going on at different sites such as Manufacturing Unit, Warehouse, Distributor/CnF Agents.

Spencer's improved on its delivery time, a 20% reduction, by making data driven decisions on the basis of analytics and shipment tracking available on LocoNav's platform.

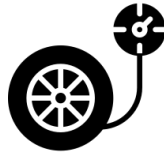

Upcoming

Asset & Tyre Management:

RFID based solution to control theft and manage service, rotation, etc.

TPMS:

Optimize tyre pressure management with our in-house product.

Driver Scorecards:

Track closely the performance of drivers. Real time alerts on missed KRA's.

Commercial Vehicles have innumerable thefts and instances of misuse. LocoNav is striving to ensure that a vehicle owner has complete visibility of performance and asset management.

The background features abstract, overlapping teal-colored geometric shapes, primarily triangles and polygons, creating a modern and dynamic visual effect. The colors range from light mint to deep forest green.
